SENSATIONAL DISCOVERY.

Children Detected in Wholesale Hoarding of Goods in Stores.

CARTHAGE, ILL., April 1.—The sensational discovery has just been made that the wholesale robbery of millinery and dry goods stores at LaHarpe, in this county, is the work of four young girls, aged from ten to thirteen years, daughters of respectable citizens of that place. For over two weeks goods amounting to a large sum in value have been stolen in broad daylight, but no clue to the thieves could be found. A sweeping search was made and large quantities were found secreted in barns, outhouses and under sidewalks. Many goods were stealthily returned that would never have been missed. The children's parents are prostrated by grief and offer to make amends. It is thought all of the culprits have not been secured, and a thorough investigation will be made.

Inhuman Outrage and Murder.

PENOA, PA., April 1.—A letter from Curwensville says that a young lady teaching school miles south of that place was found dead in the school house Tuesday evening with her tongue cut out. In the right hand of the dead woman was a lead pencil, and on the floor near her body was written in her handwriting the particulars of her death. Two tramps had entered the school-house after the pupils had been dismissed. They overpowered and outraged her, after cutting her tongue out with a knife, and then fled, leaving her for dead. She recovered sufficiently to write on the floor the particulars, with a partial description of her murderers.

Mrs. Gray died this morning, and the remains of her and husband were buried in one grave.

DAYTON, O., April 1.—Mrs. Allen Myers, with her child, was crossing a bridge over Lost Creek, when the vehicle and its occupants were thrown into the rushing stream. The woman was washed out to float a quarter of a mile down, where, enabled to walk under the pier, she was rescued by one of the Harlan's sons. The child was rescued some distance further down.

A Correspondent's Brilliant Stroke.

BANTRY, April 1.—Fresh details about the floods demonstrate that previous descriptions of the calamities were under rather than overstated. These had one amusing feature in the fact of a special correspondent of a German paper who, being lax, it is said simply translated a flood scene from one of Bret Harte's stories. The correspondent had got it right, for a big boat in being the first reporter at the seat of war.

BERLIN, April 1.—It is reported that Count Von Moltke, Count Rohan and Schafgotsch and Herbert Bismarck will receive the title of Prince.

"Can I sell you six bushels of peaches to-day?" he boldly inquired as he entered a Cleveland confectionery house. "No, sir!" was the prompt reply from the senior partner. The man went out, but he had not gone one hundred feet when he was overtaken by a gentleman who said: "I'm junior partner of the house. I do the peachstone business, while the senior partner handles the almonds. He is the one you want to see. I'll take your lot, and the next time you come inquire for me."—*Wall-Street News.*

About twenty-five members of the Legislature went to Catlettsburg Friday, where they were tendered a handsome reception. The party took a thirty minutes jaunt around town, and then started on their return home.

Mr. A. L. Shannon, having been urged by a great many of his friends to become a candidate for re-election to the office of Sheriff, states that if tendered the nomination by the Democratic party he will accept. We believe this is all that is necessary on his part to secure his re-election, as he is preferred not only by the Democrats, but also by a large proportion of the Republicans.

On Monday the mail train was derailed at Peach Orchard and delayed several hours. On Tuesday the north-bound morning train left the track at this place and was detained here over three hours; and the extra coal train, which was drawn by an engine hired from the C. W. & B. road, also jumped the track just above this place, causing a long delay of the south-bound mail. The C. W. & B. engine was damaged slightly.

DON'T let that cold of yours run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consumption. Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself. The breathing apparatus must be kept healthy and clear of all obstructions and offensive matter. Otherwise there is trouble ahead.

All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Boschee's German Syrup. IMPURE FOOD.

Exceeding caution should be exercised in the purchase of a new article of food. Many recent cases of serious illness have been reported from the use of the new patent foods for infants, from untested baking powders, and cheap flavoring extracts. The desire for rapid wealth induces unscrupulous manufacturers to place anything before the public that will sell at a large profit, without regard to its usefulness or healthfulness. At present there is a great raid upon the baking powder market, and so many impure and adulterated articles of this kind have been found peddled about the country that the authorities in several of the States have taken the necessary action to expose them. The report of the Ohio State Food Commission has shown that a large number of the brands sold here are made from alum, phosphates, or a cheap and adulterated cream of tartar. The danger to the public is made still greater by the unblushing effrontery with which the proprietors of these powders advertise them as perfect, claiming for them all kinds of false and impossible endorsements.

The official report of the Ohio State Food Commission gives the names of a number of these impure powders, and the names of a number of these impure powders, and the amount of impurity and impure matter in each as follows:

Name.	Per cent. of Impurities, etc.
Dr. Price's.....	12.65
Starling.....	12.65
Pearson's.....	14.39
Scotch (alum).....	18.25
Forest City (alum).....	24.04
Crown (alum).....	35.09
Silver Star (alum).....	31.88
Deland's.....	32.52
Horsford's (phosphate).....	34.49
Kenton (alum).....	39.17
Patapoco (alum).....	40.08
One Spoon (alum).....	58.68

The impurities in the powders above mentioned were found in analysis of various matters more or less harmful. In Dr. Price's powder the principal impurities were lime and Rochelle salts, which were found in large quantities. The impurities in Horsford's powder were composed of phosphate of Soda, lime, etc., but none of the "nutritious phosphates," without which its manufacturers claim life cannot be sustained. The impurities found in the other powders named were principally lime and alum.

From the report of the Commission it is evident that the Royal Baking Powder is of the highest degree of strength and purity.

The Lumberman needs it in case of accident. The Housewife needs it for family use. The Country needs it for its teams and its men. The Mechanic needs it always on his work bench.

The Miner needs it in case of emergency. The Farmer needs it in his house, his stable, and his stock yard.

The Black-grover needs it—it will save him thousands of dollars and a world of trouble.

The Railroad man needs it and will need it so long as his life is a round of accidents and dangers.

The Backwoodsman needs it. There is nothing like it as an antidote for the dangers of life, limb and comfort which surround the pioneer.
